DUST TACTICS: RULEBOOK
The year is 1947. The leading world powers are now aligned in three huge groups: the Allies, the Axis, and the Sino-Soviet Union (SSU). Throughout the world, these three blocs are fighting to gain exclusive control over a new resource known to the Germans as Vril-Kultur (VK). This ore has revealed extraordinary properties and brought forth the design of gigantic combat walkers, capable of challenging the world’s most advanced tanks. The discovery and first military applications of VK were developed by Germany, with everything concerning this ore shrouded in mystery. Rumors of alien visitors from another planet and secret weapons abound... but who could take such rumors seriously after years of wartime propaganda?

BEDPANS & BROOMSTICKS: ESCAPE FROM SHADY PINES
It’s the start of another day in the Shady Pines retirement home. Your abode is pleasant enough, but the home is not very exciting for someone like you. Why, back in the day, you were a mover and shaker... or, at least you think you were. It’s hard to remember exactly. You’ve heard the staff talking, and it’s a nice day outside and you would really enjoy a walk along the beach and maybe a drink at a seaside cafe. However, your bold plans have a few obstacles to overcome. The nurses, Doctor Tuur, and the rest of the staff have no intention of allowing unauthorized excursions. In addition, you can’t remember where the exit really is! So, it’s a custodial confrontation, toe-to-toe, with the Staff! Are you ready to Escape From Shady Pines? Scheduled to ship in August 2014.

Hunters seek out wildlife in the forests, while others prospect for gold in the mountains and gamble it away in the town saloons. THE STRANGE RPG

Explore! Defend! Create! Beneath the orbits and swirls of our natural universe lies the Strange, a network of dark energy and matter. Those who have learned to access and navigate this chaotic sea have discovered an almost endless set of “recursions” in the shadow of our Earth: Replicant worlds with their own laws of reality, reflected from human experience or imagination, given form in the swirling nothingness of the Strange. Worlds teeming with life, with discovery, with incredible treasures, and with sudden death. Worlds often jealous of our own. The secret plunder of these worlds beckons the brave, the daring, and the unscrupulous - and it draws dangerous enemies from these recursions back to our Earth. And slowly, but inexorably, it attracts the attention of beings from beyond Earth’s shores - beings of unfathomable power and evil from the unknown reaches of... the Strange. Scheduled to ship in August 2014.

DRAGON’S HOARD: THE CARD GAME

Dragon’s Hoard is a fun, interactive game where players get the chance to be immersed into a fantasy world where the roles are reversed. Instead of fighting a dragon, players play as a dragon! Each player is searching the deck for valuable treasures. Drawing a beautiful damsel or a powerful wizard is exciting. Acquiring an expensive treasure is difficult, but rewarding. You will need to battle your opponents, keeping them from playing actions against you. If you lose a treasure to an opponent, you will find yourself trying desperately to get it back! INVASION 1914: THE SCHLEIFFEN PLAN TO THE BATTLE OF THE MARNE

The German invasion of France and Belgium in August 1914 came agonizingly close to defeating the French armies, capturing Paris, and ending the First World War before the autumn leaves had fallen. The initial German strategy revolved around, and in part depended on, rapid victory over the French, but they were unable to deliver the knock-out blow they had planned and the surprisingly fluid battles of the early days of the war deteriorated into the defensive, trench-based warfare which was to see the war drag on for another four years of unprecedented slaughter. Scheduled to ship in August 2014.

IN HER MAJESTY’S NAME: SLEEPING DRAGON, RISING SUN

China, the greatest empire the world had ever known, is weak and divided after a series of humiliating defeats in the Opium Wars, and the divine Empress’ court harbours many who deeply resent the westerners who inflicted and now take advantage of these losses. Japan, on the other hand, has embraced the West with open arms. Hand, has embraced the West with open arms. Recreate such thrilling campaigns spread over 33 years, a great deal of lower-level fighting, and the harshest final peace settlement that Charlemagne ever imposed upon a defeated foe. This was also the most important of all Charlemagne’s wars for the future direction and character of European history and, paradoxically, it also began the long process of uniting the German-speaking peoples. Scheduled to ship in August 2014.

VAMPIRES: A HUNTER’S GUIDE
For centuries, vampires have wandered the shadows, watching, stalking, praying. But thanks to a group of dedicated and powerful hunters, the vampire threat has remained largely suppressed, evidence of their existence confined to the whispers of myths and folklore. But covens across the world have grown weary. The undead are preparing to rise up and claim their rightful place in society. Vampires: A Hunter’s Guide contains all the information necessary to recognize and combat this growing threat.
