THORNY GAMES**SPOTLIGHT ON****SIGN**

This game is based on the history of Nicaraguan Sign Language. Nicaragua in the 1970s had no form of sign language. In 1977, something happened. Fifty deaf children from across the country were brought together to an experimental school in Managua. Without a shared language to express themselves, the children did the only thing they could - they created one. In *Sign*, we follow a story inspired by that journey. All proceeds from the physical version go to support sign language education in Nicaragua, currently The Nicaraguan Sign Language Projects (NSLP). This has yielded more than \$15,000 in donation to date. We also thank the NSLP for their guidance and input on game design. Scheduled to ship in June 2021. TYG TG0011 \$20.00

UNIQUE BOARD GAMES

FREE MARKET: NYC

Free Market: NYC is a competitive and strategic board game based on the principles of a free market economy, presented from a humorous and ironic perspective of life. In this game, you will find yourself managing a group of people who work together in different assignments, aiming to grow their fortune according to your vision. Throughout the game, you will purchase merchandise at the auction, deliver goods to shops and factories, establish partnerships in shops and factories, or possibly take over other players' business and capital. You will also attend events, influence politics, win awards, and garner all kinds of influence to help your businesses, partnerships, and assets flourish as you move forward in the game. The trick is simple: buy when the market is low and sell when it's high to make the most profit before your opponents do. The most successful businessman wins the game.
